Oxbridge Tutorial College

Oxbridge Tutorial College was established in 1993 as the first specialist sixth form college in Nigeria. A commitment to innovative teaching methods has allowed us to consistently achieve some of the best results in Nigeria.

Oxbridge now has a new, purpose built facility in GRA Ikeja. We have undertaken

an on-going development programme to ensure that, year on year, we offer our students the very best.

Some of the facilities we currently offer include:

- New, purpose built, state-of-the-art **science laboratories and computer facilities**
- **Boarding facilities** for girls (on site) and boys (Hostel facilities off site)
- **Multimedia facilities**, with leading-edge teaching techniques
- **Air-conditioned** classrooms
- **Vsat broadband connection** for all students
- Continually expanding **library**
- **Secure**, gated premises
- **Catering facilities** with air-conditioned dining hall
- On site **medical facilities**.

BellerbysCollege

PREPARATION FOR UNIVERSITY EDUCATION

Bellerbys College

Bellerbys College has over 50 years of experience in

helping international students achieve their academic ambitions. Bellerbys students have gone on to some of the finest British universities, including almost 40 students to the universities of Oxford and Cambridge in the last six years alone.

Year on year, our outstanding academic success is reflected in our results, with 49% of A-level students graduating to the top 10 UK universities and 53 students progressing to Oxford, Cambridge, Imperial College and LSE in 2011. We offer:

- **Intensive academic preparation** with outstanding success and results
- **Practical study skills** for university success
- **State-of-the-art technology** and learning expertise
- **World-class teaching** – 50% of our teachers are Oxford or Cambridge taught or educated to Masters or PHD level
- **A caring college community** – student advice, professional counselling and full UCAS application support.

We have undertaken an on-going development programme to ensure that year on year, we offer our students the very best

Medical and Science A Level Programme

26%
of A Levels graded A* –
3 times the UK national average

You will have the unique opportunity to spend a year in Nigeria completing the first year of A Level study with Oxbridge Tutorial College.

During your first year you will be able to take advantage of the premium facilities at the College, as well as undertake an internationally recognised qualification in a local environment.

The syllabus will be consistent with your future study at Bellerbys which will enable you to become familiar with the teaching methods in the UK. The added benefit is the significant cost reduction of studying in the UK for only 1 year – whilst still achieving your academic ambitions.

Upon completion of the first year, you will then travel to the UK and complete the second year of your A-level programme at the Bellerbys College Cambridge campus.

Bellerbys prides itself on the highest standard of academic teaching, we currently achieve A Level results which rank within the top 5% in the UK, with 26% of A* grades (3 times higher than the national average). This is achieved through our network of outstanding teachers who are in many cases Oxford or Cambridge educated, or qualified to PhD level and additionally through our e-learning system, Study Smart, which enables students to access course materials at any time.

Students can review their class work, listen to audio files, watch videos and make use of the materials their teachers use in class. Our small class sizes and extensive student support system allow students to receive the individual care and support they need to focus on their study in a new culture and environment.

Abdulbasit ABDULRAHIM from Nigeria
Studied A Levels and achieved A*AAA
Graduated to London School of Economics
Now studying Philosophy and Economics

What I most like about Bellerbys is the diverse environment, which brings together different cultures. Also, the school has exceptional teachers.

Specialist preparation for medical school

For students wishing to study medicine or Science degrees at top UK universities there are many challenges ranging from cost to quality.

Bellerbys College in the UK and Oxbridge Tutorial College in Lagos have teamed up to provide Nigerian students with a truly unique opportunity. Students will be able to obtain the necessary academic and extracurricular experience both in Nigeria and the UK that will allow for entrance to high ranking medical or science based university degrees in the UK. The added benefit is to significantly reduce the higher costs of studying in the UK for two years – yet still leave with the same qualification and university options.

Your route into Medical school

If you want to go to medical school in the UK, you will need specialist preparation to gain the best chance of success. 22 students have graduated to top universities to study medicine over the past 3 years. In 2011 students graduated to some of the UK's leading institutions, including: **University College, London, St Andrews, University of Edinburgh, University of Birmingham** and many more. We offer:

- Advice on UKCAT and BMAT medical admissions tests
- Visits by medical school staff together with work experience and mock interviews
- Medical Applications Group – students receive talks from medical admissions tutors, are guided through the medical applications process for UCAS and receive training in interview techniques and practice the UKCAT medical admissions tests.

Students hoping for a career path in Medicine will not only require excellent academic grades, but specialist preparation to gain the best chance of success. Medical school in the UK is incredibly competitive and Bellerbys prides itself on our extra-curricular weekly medical meetings which include:

- Preparation for interviews
- Reading and discussions of medical journals
- Application for work at local hospitals, the Red Cross or clinics in the local area – an invaluable experience for their UCAS application.

Will completing the A Levels with Oxbridge Tutorial and Bellerbys College guarantee me a place at Medical School in the UK?

Medical School in the UK is very competitive. The excellent preparation you will receive from both Oxbridge Tutorial College and Bellerbys College will give you the best possible chance, but still does not provide a guarantee of placement at a medical school in the UK.

For students who are not awarded a place in Medicine, we can ensure that these students still leave with typically strong A Level results in science related fields that would still place them in the top ranked UK universities for Biological sciences, Medical sciences or pharmacy related disciplines.

Ogaga SIM-IFERE from Nigeria Studied A Levels and achieved **A*A*AA** Graduated to **St Andrews University** Now studying **Medicine**

I'm delighted with my results. The teachers at Bellerbys were extremely helpful and friendly, I found this particularly helpful especially since application to study medicine in the UK is highly competitive.

50%
of Bellerbys teachers are **Oxford or Cambridge** taught, or **educated to Masters or PhD level**

Bellerbys College: the best preparation for UK universities

53
students graduated to **Oxford, Cambridge, Imperial College, LSE and UCL**

49%
of A Level graduates entered **top 10 ranked UK universities**

96%
of A Level graduates entered **top 50 universities**

26%
of all A Levels taken at Bellerbys were graded **A*** (national average 8%)

60%
of all A Levels taken at Bellerbys were graded **A*-A** (national average 27%)

Bellerbys graduates

Bellerbys has a very diverse population of students which is similar to what I've been exposed to at university

Bellerbys London is such a lovely place... What I like best about it is the homely environment. It's such a close knit family, which makes it a lot easier to blend in

Oshokhai Imomoh from Nigeria

Studied A Levels at Bellerbys Cambridge and achieved AAAA

Now studying Chemical Engineering at Imperial College, London

Imperial College is one of the top five universities in the UK. We are taught in lecture theatres, with over 120 students. Students have the opportunity to mix with people from different nationalities studying various disciplines. There are many exciting activities to participate in, from sports and club societies to charitable events. The learning process is very different – class sizes at university are large; at Bellerbys the number of students in a classroom is small. Communication between students and their tutors is therefore slightly different. Bellerbys has a diverse population of students which is similar to what I've been exposed to at university meaning I was already accustomed to the contrasting cultures. Bellerbys taught me how to be disciplined; to balance my work and social life around the intense hours of study at university.

If you are a student looking for the best college where you will receive a very sound education, enjoy your studies and have fun in the process – Bellerbys is the place.

Aishat Abodunrin Raji from Lagos, Nigeria

Studied A Levels at Bellerbys London and achieved A*A*A*Aa

Secured a place at University of Warwick to read Economics

Aishat joined Bellerbys in September 2009 to follow a six term A Level course. Aishat maintained an outstandingly high standard of academic work throughout her programme and was always extremely friendly, cheerful and helpful to all she encountered.

She did an enormous amount of work for the extracurricular aspect of the college, giving up every spare moment she could to raise money. Such was her contribution to Bellerbys, she was awarded the Academic Director's Best Overall A Level Student, an accolade she truly deserved.

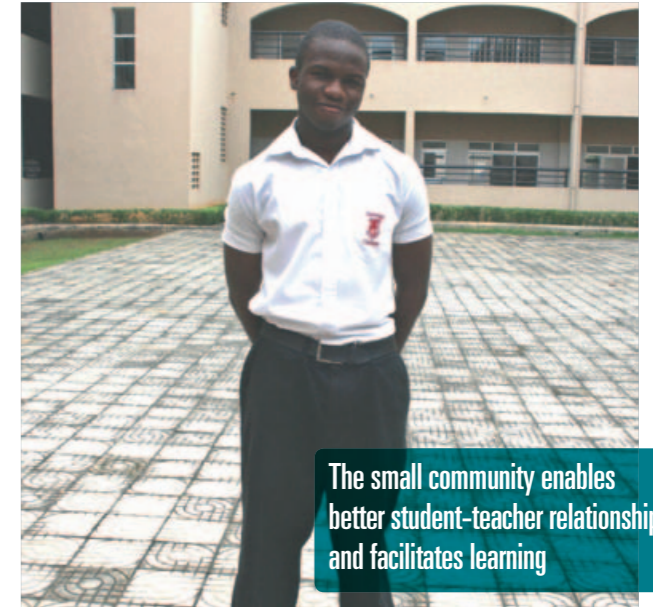

All her teachers have complemented Aishat on her natural intelligence and diligence in her studies, attributes which should ensure that she continues her academic success at Warwick.

Andy Quin, Principal, Bellerbys London

Oxbridge tutorial students

My Oxbridge experience is one I am truly grateful for and one I would highly recommend

The small community enables better student-teacher relationships and facilitates learning

Chukwujindu Awele Juwah

Oxbridge was beyond my expectations and now I believe it to be Nigeria's gateway to success in the UK.

With a highly efficient learning system and well equipped science labs, I watched as every page in my notes came alive in full colour and radiance.

Recreation was also an important part of the agenda, amidst all the hard work, there was still time for dinners and sports.

My Oxbridge experience is one I am truly grateful for and one I would highly recommend. Oxbridge Tutorial College, OTC, has made me better prepared to study in any university. Thank you OTC!

Frederick Idefayo Ikpatt

The teachers were always willing to help me understand any areas within their subjects that I found difficult. When the final exams results arrived, I received the high grades I desired for university. The small community enables better student-teacher relationships and facilitates learning.

The teachers all worked exceptionally hard to help support us. All of my teachers were excellent.

I can confidently say that any parent investing money in his or her child to attend Oxbridge Tutorial College is making a wise decision. In my opinion, Oxbridge Tutorial College is the best Sixth-Form school in Lagos State.
